

Cleaning Checklist for Camp Gear

You are expected to return equipment clean, dry, and in working condition. Please allow time for equipment to be cleaned when choosing your return date. The National Park Service will take care of laundering the sleeping bags. It is your responsibility to make sure they are returned in a dry state.

Tent

- ☐ Remove all dirt/debris from tent interior (easiest to do when tent is set up)
- ☐ Wipe off any dried dirt with a damp cloth
- ☐ Allow tent, rainfly, and footprint to completely air dry (DO NOT PUT IN DRYER)
- ☐ Fold footprint and place in provided bag
- ☐ Roll rainfly and tent to fit in provided tent bag

Sleeping Bags

- ☐ Shake out each sleeping bag and allow to air dry
- ☐ Make sure sleeping bags are put back into the correct stuff sack (sleeping bag number is on internal rim of bag and on bottom of stuff sack)

Sleeping Pads

- ☐ Wipe off any dirt with a damp cloth
- ☐ Allow to air dry if needed
- ☐ Put sleeping pads into the correct stuff sack (sleeping pad number in top right corner of pad near mouth piece and on top edge of stuff sack)

Backpacking Packs

- ☐ Wipe off any dirt with a damp cloth and let air dry
- ☐ Make sure all personal items are removed (including trash)

Cook Kit

- ☐ Hand wash all dishes and air dry
- ☐ Place cups in pot (fits best if cup lids are placed in cups instead of attached to cups)
- ☐ Plates go in the bottom of the black mesh bag, with pot sitting on top

Headlamps

- ☐ Lock headlamps by holding down the button until the red light pulses several times
- ☐ Wipe off any dirt with a damp cloth and let air dry
